Step 1: Install .NET SDK 8 & Azure Functions Core Tools via PowerShell

Copy and paste this script directly into your Administrator PowerShell window to download and install both tools automatically via `chocolatey` / direct package script:

PowerShell

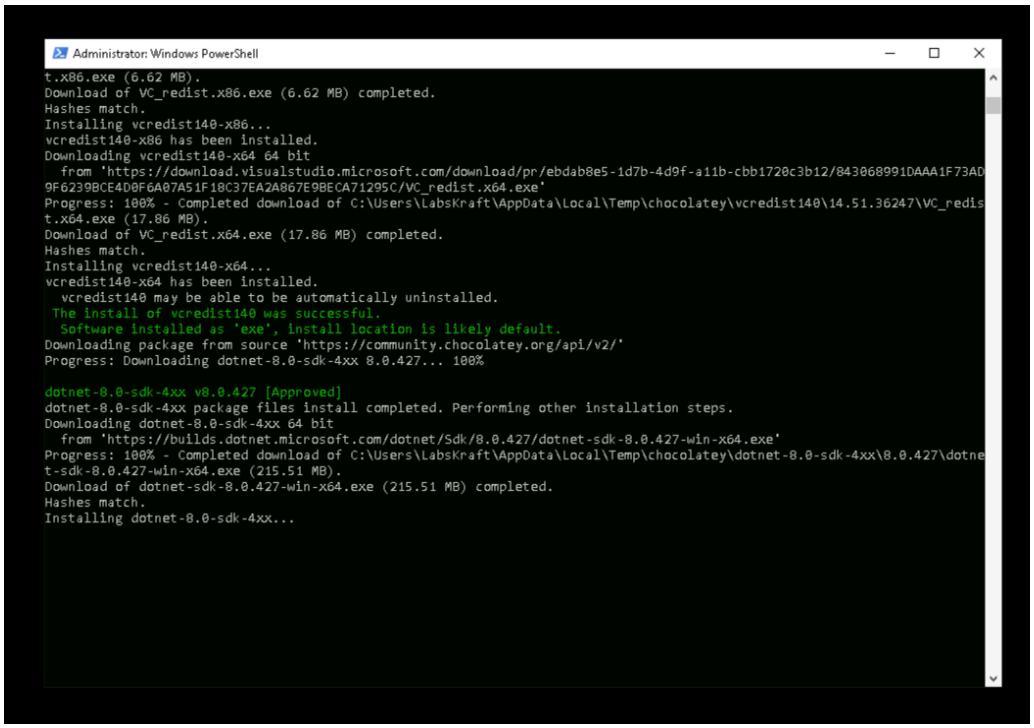

```
None
# 1. Install Chocolatey Package Manager

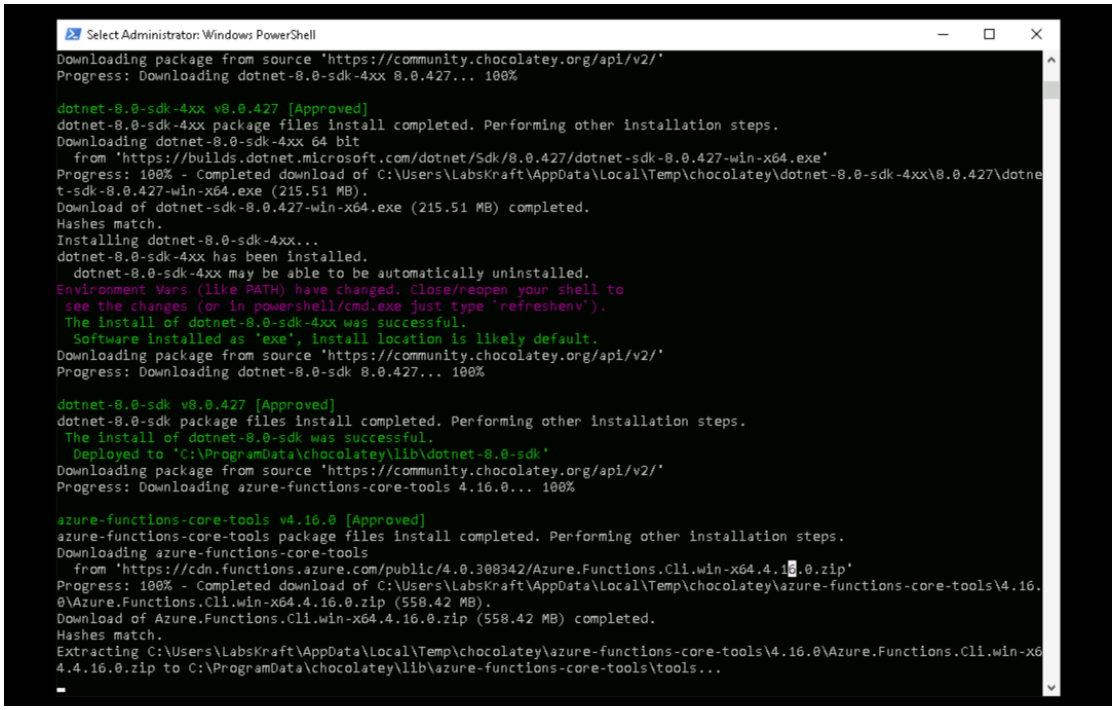

Set-ExecutionPolicy Bypass -Scope Process -Force;
[System.Net.ServicePointManager]::SecurityProtocol =
[System.Net.ServicePointManager]::SecurityProtocol -or 3072; iex
((New-Object
System.Net.WebClient).DownloadString('https://community.chocolatey.
org/install.ps1'))

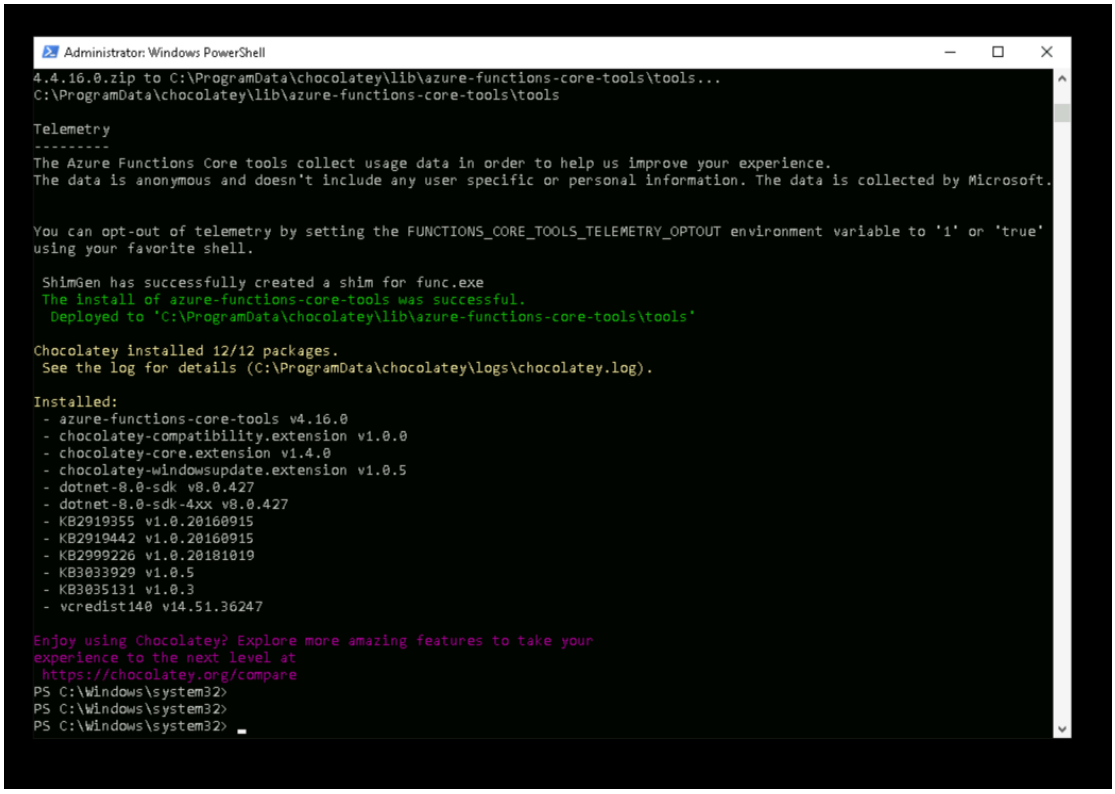

# 2. Install .NET SDK & Azure Functions Core Tools

choco install dotnet-8.0-sdk azure-functions-core-tools -y
```

This installation might take 5-10mins

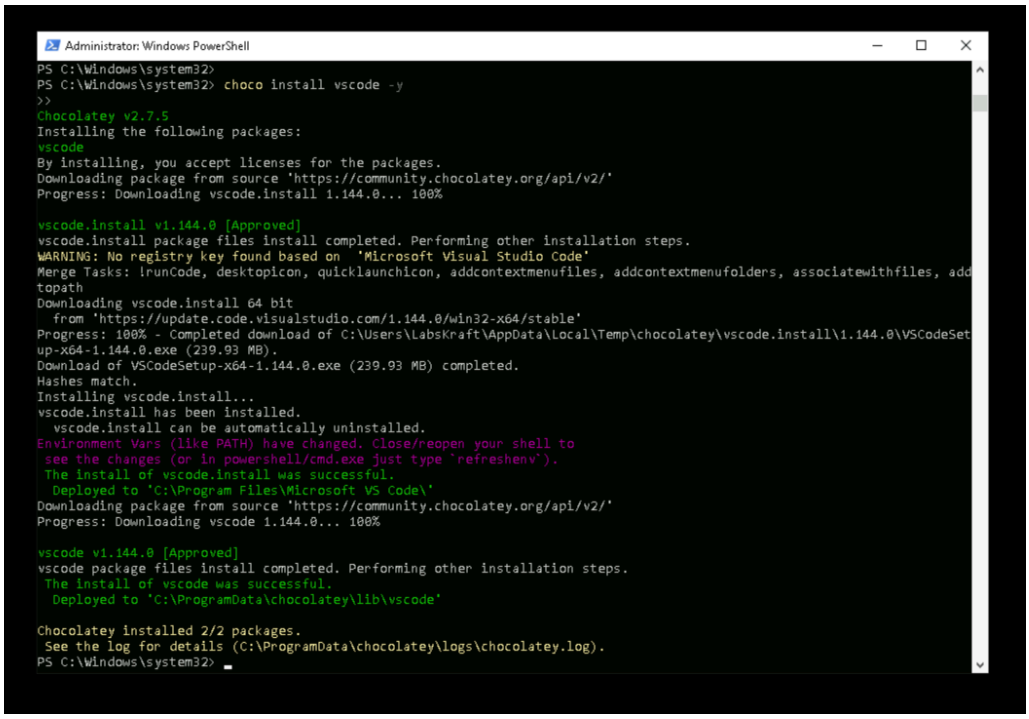

Step 2: If you already have VS Code installed

```
None

Install VS Code if not available

choco install vscode -y
```

If VS Code is already installed on the machine, add it to your PATH by running:

```
None
$env:Path += ";C:\Users\$env:USERNAME\AppData\Local\Programs\Microsoft VS Code\bin
```

Then installing the extensions:

```
None
code --install-extension ms-dotnettools.csdevkit
```

```
code --install-extension humao.rest-client
```
